Purchase

Kidsnet Locks your Internet browser (Internet Explorer and or Fire Fox) to our database of human reviewed Web sites.

T

he first step is to purchase Kidsnet from www.kidsnet.com. After Purchasing you will be directed to Web page to Install Kidsnet. This guide will assist you in installing kidsnet and choosing the level of protection that you feel is appropriate for your child. **You choose which level** - for your convenience 4 levels of protection based on the child's developmental stage have been provided. The levels are Y, G, PG, T for youth, general, parental guidance, and teen. www.kidsnet.com/ratings.htm

Purchase Information

Buy Now
Only **\$49.95**

At the Kidsnet Home Page, when you click on this box you will be directed to an order form where you can safely enter your credit card information to make the purchase. If you entered the information correctly and there were no errors you will be directed to the install page. If any errors occurred the transaction will not take place and the error page shown below will be displayed.

Declined

An issuing bank will often decline an attempt to charge a credit card if the name, expiration date, Address or ZIP Code you entered does not exactly match the bank's information. Please double-check your credit card number.

[Try Again](#)

Upon a successful purchase transaction you will be directed to enter your email address and a create a password. Enter a valid email address and choose a password that is easy for you to remember. You will need this information to download Kidsnet and configure or change your account settings. If the email address you provide already exist, the system will prompt you for a new email address. A Thank You page is

displayed with links to download Kidsnet and Installation Instructions upon successful completion of the previous steps. A confirmation email will be sent to the email address you provided.

Download

Clicking on the link for download and installation instruction you will be prompted to enter your email address and password.

The next page displayed prompts you to choose the Internet Browser you are using to download the correct version of Kidsnet. You are given two choices for two different browsers: Internet Explorer or Fire Fox.

Choosing either browser will direct you to the appropriate Kidsnet installation page.

Installation

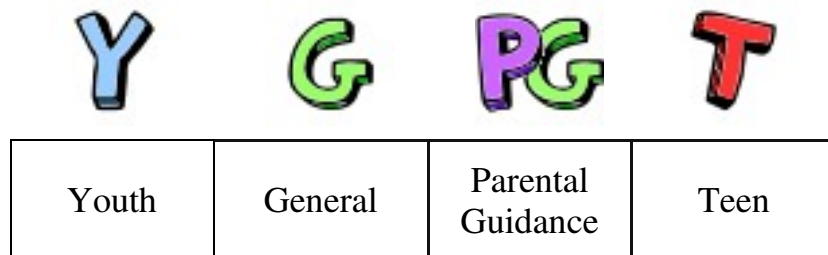

Installing Kidsnet will:

- Change your Computer Browser's Home Page to the Kids Site Hazoo (www.Hazoo.com). You will not be able to change this setting without uninstalling Kidsnet
- Filter the computers access to Internet Web pages based on the Web page content. There is no "over-ride" that allows access to the blocked page
- Kidsnet is for computers running Windows Operating Systems with Microsoft Internet Explorer or Netscape Navigator, or FireFox browsers - Kidsnet will not work with Apple or Linux based computers.

Installing Kidsnet is very easy. You simply select the level of protection you desire and several download dialogs are displayed which will prompt you to click on "RUN", "SAVE", or "CANCEL". Always select "RUN" for a successful download and installation.

To download Kidsnet for the protection level chosen you simply click on the appropriate icon. Show below:

These are the settings:

Clicking on the icon initiates the download procedure for Kidsnet. After clicking “RUN” on the download and security dialogs the browser will be locked to the settings you chose.

Congratulations! This completes the installation of Kidsnet on your computer.

Configuration

This section only applies if changes to the level of content control are desired after initial installation. It is highly recommended that the current Kidsnet be uninstalled prior to making changes to the level of protection desired.

You can reconfigure you content control level by revisiting the installation page. To access this page you need to login with the email address and password you used to purchase Kidsnet. The login page can be accessed by clicking [here](#) or copying and pasting this link to your browser. <http://proxy.kidsnet.com/clientless>

Remember to first choose uninstall to clear settings from your browser. After uninstalling Kidsnet follow the installation procedures outlined in the [Installation](#) section.

Support

If you purchased Kidsnet from a reseller such as an Internet Service Provider (ISP) you may need to contact them for help.

If you purchased your software directly from Kidsnet you get Free Priority next business day e-mail support. Please e-mail any questions to [support @ kidsnet.com](mailto:support@kidsnet.com) (no spaces in the e-mail address)

If you need telephone support there is a charge of \$9.95 per call and you will need a credit card to use this service. Telephone support is available by calling the main number at 1-904-866-4119 M-F 9 to 5 EST - USA.

Kidsnet is a security program, once installed you can not uninstall it without the adult ID and password. If you have forgotten your password please use the "Forgot password" feature built into the Kidsnet software to retrieve it.
